MANAGED DETECTION & RESPONSE

MANAGED ENDPOINT SECURITY SOLUTIONS, SUPPORTED 24X7 BY OUR GLOBAL NETWORK OF PARTNERS

Infocyte's Managed Detection and Response (MDR) solution combines technology and resources to protect businesses from sophisticated cyber threats. Infocyte leverages advanced threat detection, in-memory forensics, breach response, and on-demand support—24x7.

Infocyte's MDR solution includes access to security researchers, malware analysts, and support engineers available to help you monitor your IT environments, analyze threats and vulnerabilities, and respond to security incidents at scale. Infocyte's MDR solutions are supported by our global network of certified assessment, incident response, and manage security service provider (MSSP) partners like PwC, Check Point Software, Grant Thornton UK, and more.

INFOCYTE MDR SOLUTIONS

24x7 Managed EDR

Incident Notifications

Malware Analysis

Incident Response

Post-incident Certification

INFOCYTE MDR = 24X7 PIECE OF MIND

Increasingly complex and distributed IT environments, talent scarcity, and other factors make securing your network difficult. Infocyte's MDR solution defends your network against advanced cyber threats — 24x7. Infocyte's MDR solution includes everything you need:

- Guided Setup and Deployment (avg. 1-3 days)
- 24x7 Alerting and Support from Certified Partners
- Incident Response Assistance and Remediation
- Custom Reporting, Dashboards, and Platform Extensions

Infocyte helps you expose and eliminate hidden cyber risks in your environment, track improvement over time, and reduce your mean time to detect (MTTD) and respond (MTTD) to within minutes.

BENEFITS WITH INFOCYTE MDR:

- Comprehensive, cost-effective managed security services, supported by a global network of certified partners
- Accelerated ROI with flexible pricing plans, ease-of-use, and reduced dwell time--reducing breach damage and costs
- Minimized compute cycles and lower usage costs with agentless, API-driven technology and off-network analysis
- Better visibility into complex IT environments, including cloud assets
- On-demand security incident response as threats are exposed

BENEFITS WITH INFOCYTE MDR:

Infocyte

Infocyte's managed security solutions help mid-market organizations reduce cyber risk, expose and eliminate hidden threats and vulnerabilities, and maintain compliance. With agentless scanning, Infocyte can inspect your environment to discover assets, prioritize security alerts, isolate patient zero, and streamline IR — within minutes of deployment. Additionally, Infocyte can be configured for automatic remediation.

EXPERT, WORLD CLASS, 24X7 SOC SUPPORT

Infocyte's MDR solution provides 24x7 access to our SOC via support tickets, email, phone, and chat. Our team of security experts work together to detect, analyze, respond to, report on, and prevent cybersecurity incidents — so you don't have to.

Infocyte's SOC is supported by our network of resellers, MSPs, MSSPs, and technology partners who provide world-class managed threat and vulnerability detection and incident response services, support, integrations, and more.

AUTOMATED FORENSIC INVESTIGATION

Infocyte MDR providers leverage our patent-pending, live-memory forensics technique that enables security teams to detect, investigate, and respond to breaches up to 10x faster than traditional log-based, detection methods. Infocyte is also the only platform that combines continuous monitoring with live and historical primary forensics data.

QUICK, CONCLUSIVE THREAT ASSESSMENTS

Threat and Compromise Assessments with Infocyte are easy. Quickly and continuously validate security controls and know if your network is breached. Detect and respond to known and unknown malware and APTs — active or dormant — hiding in your IT environment.

Infocyte provides detailed post-assessment reports to streamline remediation, incident response, and recovery. Assessments conducted with Infocyte are faster, more comprehensive, more effective, and less invasive than traditional methods.

ON-DEMAND INCIDENT RESPONSE

Infocyte MDR solutions include a comprehensive set of security services: Incident Notification, Managed Detection, Malware Analysis/Reverse Engineering, Malware Analysis, Incident Response, and Post-incident Certification — to confirm your environment is secure.

ABOUT INFOCYTE

Founded by the leaders of the United States Air Force Cyber Incident Response Team (AFCIRT), Infocyte is the globally trusted leader in proactive threat detection and incident response. The world's leading security and incident response companies use Infocyte's platform to proactively detect and respond to vulnerabilities and threats within their customers' endpoints, data centers, and cloud environments. Infocyte's team and partner ecosystem help organizations maintain compliance, stop ransomware and account takeover, reduce risk, optimize security operations, and scale security teams. Infocyte is the faster, simpler, smarter way to detect and orchestrate response to sophisticated threats. Learn more at infocyte.com or follow us on Twitter @InfocyteInc.
