

Trusted by Check Point, KPMG, and PwC, Infocyte is a globally trusted leader in advanced behavioral threat detection, incident response, and Microsoft 365 security. Infocyte helps organizations maintain compliance, stop ransomware and account takeover, reduce risk, optimize security operations, and scale security teams.

INFOCYTE PLATFORM OVERVIEW

ASSESS

Uniquely analyze live memory, file-less threats and applications

Easily test and validate your security controls and compliance

Advanced detection of live breach attempts and dormant injections

RESPOND

Global cross-platform detection to respond in minutes

Immediately isolate compromised hosts with root cause analysis

Post-incident assessments verify and validate security

MONITOR

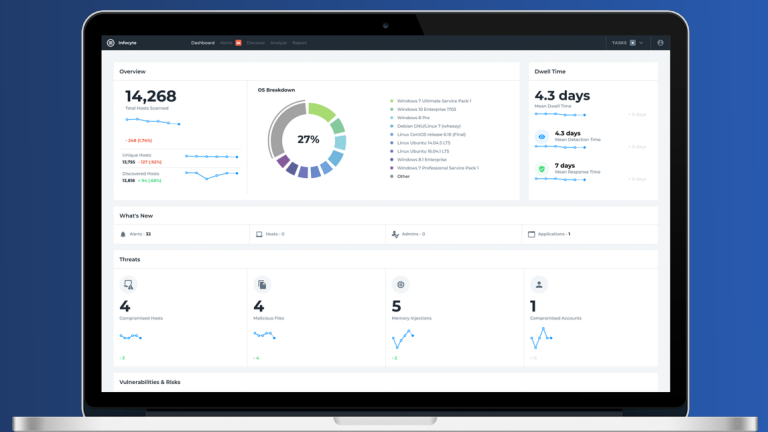

Continuous process monitoring for immediate visibility of threats

Differential forensic analysis resolves historical data with real-time event data

Dynamic or scripted response options simplify investigation

INFOCYTE IS THE ONLY CLOUD-BASED INCIDENT RESPONSE AND ADVANCED THREAT DETECTION PLATFORM OFFERING:

- ▶ Agentless or agent-based deployment
- ▶ Behavioral analytics and detection based on *Top 20* MITRE ATT&CK behaviors
- ▶ Real-time process and memory monitoring
- ▶ Historical forensic analysis at scale
- ▶ Automated and scalable response actions

Veteran-founded Infocyte is the only Managed Detection and Response (MDR) provider solely focused on detection and response, enabling you to deploy it with your existing Endpoint Protection Platform (EPP) investments or MS Defender.

- ▶ **Detect and Respond to Endpoint Attacks:** Inspect, analyze, and respond to host and end-point threats through our patented agentless forensic inspection and extensible response actions
- ▶ **Assess Security Controls to Eliminate Microsoft 365 Attacks:** Analyze Microsoft 365 environments for security compliance and detect changes that increase risk
- ▶ **Behavioral Analytics Detection based on MITRE ATT&CK:** Scan environments for top IOC's and detect TTP's to prevent future attacks or recover quickly from current incidents

ABOUT INFOCYTE

Founded by the leaders of the United States Air Force Cyber Incident Response Team (AFCIRT), Infocyte is the globally trusted leader in advanced behavioral threat detection, incident response, and Microsoft 365 security compliance. The world's leading security and incident response companies use Infocyte's platform to proactively detect and respond to vulnerabilities and threats within their customers' endpoints, data centers, and cloud environments. Infocyte help organizations maintain compliance, stop ransomware and account takeover, reduce risk, optimize security operations, and scale security teams. Infocyte is the faster, simpler, smarter way to detect and orchestrate response to sophisticated threats. Learn more at infocyte.com or follow us on Twitter: @Infocytelnc.
