

If they try it, we'll stop it.

Founded by the leaders of the United States Air Force Cyber Incident Response Team (AFCIRT), Infocyte is a globally trusted leader in proactive threat detection and incident response. Infocyte helps organizations maintain compliance, stop ransomware and account takeover, reduce risk, optimize security operations, and scale security teams.

INFOCYTE PLATFORM OVERVIEW

ASSESS: Quickly and conclusively assess potential threats to your applications, users, and other critical assets in your on-premise, data center, and cloud environments.

RESPOND: Instantly and automatically respond to potential risks — analyze, investigate, contain, eradicate, and recover.

MONITOR: Expose hidden and unknown vulnerabilities, threats and cyber risks resident within your IT infrastructure.

CLOUD NATIVE | POWERED BY AI & ML | AGENT OR AGENTLESS
SOPHISTICATED CYBER THREAT PROTECTION

INFOCYTE PLATFORM CORE FEATURES

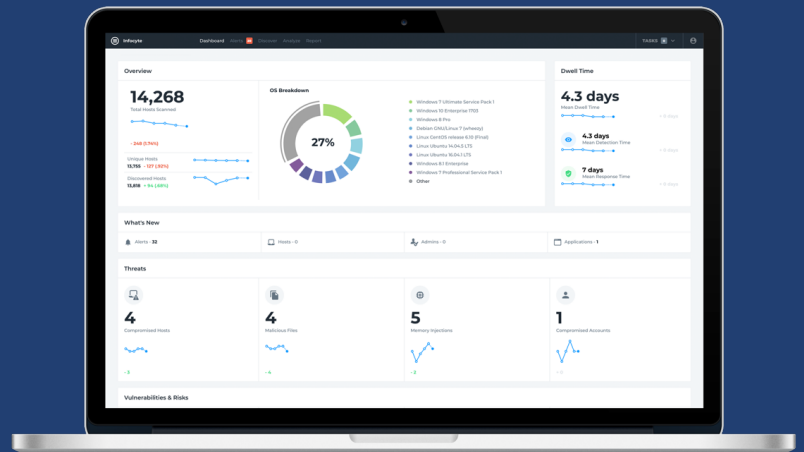

Continuous Threat Monitoring

Advanced Threat Detection

Scalable Incident Response

Integrated Platform Extensions

Agentless Threat Assessments

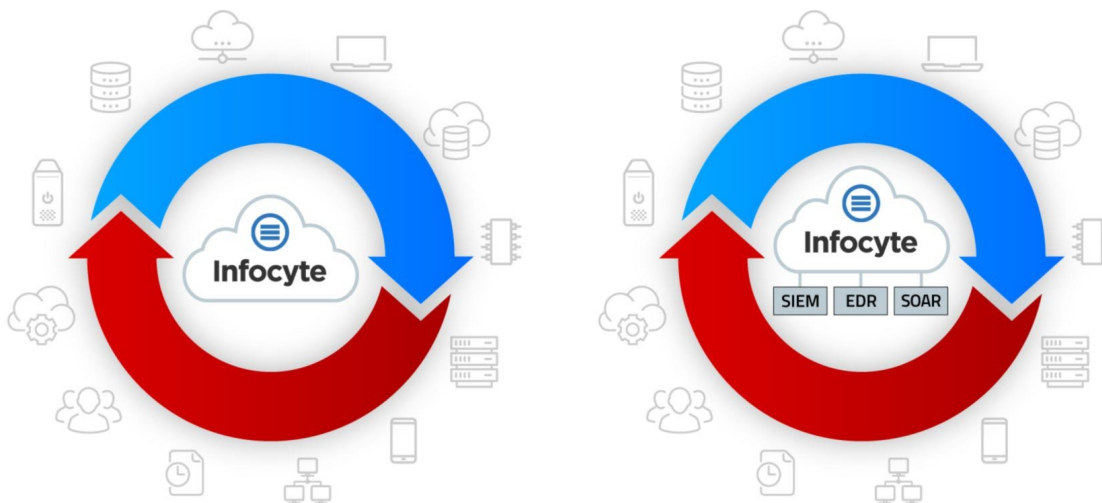

WHY INFOCYTE?

Veteran-founded Infocyte is the only Managed Detection and Response (MDR) provider solely focused on detection and response, enabling you to deploy it with your existing Endpoint Protection Platform (EPP) investments or MS Defender.

- Live memory forensics & analysis
- Security value in hours
- Extensible and scalable response capabilities
- AI and ML based real-time monitoring and threat detection
- Threat intelligence and analytics across all endpoints
- SaaS Based delivery model
- Protection capabilities with Infocyte + MS Defender
- Agentless option if quick deployment is needed
